School Culture Survey

John Hopkins Institute has been working with our Seventh-day Adventist School System to provide us with a way of assessing school culture. On **Monday, February 5 we will be sending out a link to a survey** for you parents/guardians to fill out. The survey should take approximately 10 minutes. Please take the time to honestly answer each question on the survey. We would like an honest picture. One survey per family.

The survey link will stay open til February 19.

The students will also be filling out a survey during the week of **February 5-9**. The purpose of the student survey is to help PVCA understand how students experience school life.

Please encourage them to be honest and realistic with their responses.
